

1U HD Fiber Enclosure with Cassettes

Description

1U Rack Mount HD Fiber Enclosure supports maximum 144 fibers. It is mainly installed in server cabinet with capability of housing 6pcs high-density easy-plug MTP / MPO to LC fiber panels or cassettes developed. This solution contributes to greater network availability that especially ideal for connection and cable management of Data Center MDA, IDA, HDA and other optical fiber backbones. It can be pre-terminated with MPO/MTP switching modules or MPO/MTP adapter front panels to achieve interconnect and cross-connect of backbone cables and active devices.

Features

- Standard EIA 19" rack rails
- Rivet buckle lockable design avoid sliding
- Clear ID marked and Easy to Locate
- Improve space to make sure bending rate of fiber

Application

- High density fiber cabling system
- Fast cabling system
- Backbone network
- High integration equipment and device
- Data center, SAN system etc.

Specification

Items	1U HD fiber enclosure with cassettes
Size	485 x 470 x 44mm
Weight(with cassette)	4.0 kg
Capacity	LC 144 cores/SC 72 cores
Operation Temperature	-25°C~ +70°C
Patch Cord	Type MPO/MTP-LC/SC Patch cord
