

Compact DIN Rail Box

12F – 6LC Duplex

Genius Fiber DIN Rail Module delivers compact and secure fiber termination for industrial panels. Engineered for high-performance optical connectivity in automation and control systems. Supports single-mode and multi-mode adapters for versatile network integration. Designed for organized cable management with quick and easy DIN rail mounting

Key Feature

- Small and compact box suitable for the distribution of terminals in confined spaces
- Ideal for indoor use with efficient fiber organization
- Equipped with a rear-mounted DIN rail for secure and stable installation
- Features four optional gland entry ports for flexible cable routing
- Fully compatible with standard 35 × 24 × 7.5 mm DIN rail dimensions

Product Specification

Material	Steel
Color	Electrostatic Painting – White / Grey
Dimension	128 x 130 x 36mm
Max Cable Diameter	10mm
Weight	0.3Kg Approx
Splice Tray	Yes
Coupler Compatibility	LC Duplex
Max Fiber Capacity	12F
