

Wall Mount Termination Box

24F

Wall/Pole Mount Termination Boxes are designed for fiber splitting and termination in multi-dwelling units and small offices with low to medium port capacity. The box includes separate lockable sections for cable termination and splice areas to restrict unauthorized access. Made from durable, high-quality plastic, it offers reliable protection and serves as a cost-effective solution for both indoor and outdoor FTTH deployments.

Key Feature

- Provision for secure cable anchoring (cable straps included)
- Includes 24 color-coded pigtails
- Built-in splice tray for organized fiber management
- Bottom cable entry design
- Radius-controlled cable routing for minimum bend protection
- Suitable for wall and pole mounting
- IP65-rated enclosure for dust and water protection
- Suitable for FTTH, Optical CATV, PON, Telecom, and CATV network
- RoHS Compliant

Product Specification

Wall Mount Material	ABS
Product Color	Grey
Dimension (LxWxH)	320x240x100mm
Coupler Compatibility	SC Simplex
Number of Ports	24 Max.
Number of Pigtails	24Nos (Coloured Pigtails)
Type of Pigtail	Single Mode SCA
Insertion Loss	≤0.3dB
Return Loss	≥60dB
Operating Wavelength	1310nm & 1550nm
Max Supporting Cable Dia	8 mm to 13mm
No of Cable Input Port	2 Nos
No of Cable Output Port	24Nos (3mm Cable)
Ingress Protection	IP65
