

Face Plate

UK Style

Genius offers a wide selection of coloured modular connectors to help identify the port to the workstation with the help of Faceplates and Wall Box. The housing of the connectors mounts flush with the front faceplate. This makes the outlet appear as one complete piece and aesthetically pleasing. Faceplates come with one, two & four port with shutter which can be configured with modular connectors for data-voice connectivity. These Faceplates and Wall Box are made with tough ABS plastic for long-lasting use and comply with UL 94 plastics flammability standard.
